

ROMEEL IQBAL

Software Engineering Intern Candidate

Hyderabad, Pakistan | 03161346615 | romeelshaikh3@gmail.com | romeelportfolio2.netlify.app

PROFESSIONAL SUMMARY

Motivated Software Engineering undergraduate at Mehran University of Engineering and Technology with a strong foundation in full-stack web development, cybersecurity concepts, and Python programming. Demonstrated ability to independently design, build, and ship real-world projects — from a responsive personal portfolio to a Python-based ransomware simulation. Backed by a Google-certified project management internship and multiple industry certifications, I bring structured problem-solving, clear technical communication, and a drive to deliver high-quality software solutions. Eager to contribute to a collaborative engineering team as a Software Engineering Intern.

EDUCATION

B.E. Software Engineering • *Mehran University of Engineering & Technology* 2023 – 2027

- ▶ One of Pakistan's premier engineering institutions; competitive intake for Software Engineering program
- ▶ Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, Web Technologies, Database Systems

Pre-Engineering • *Saiffee College, Hyderabad* 2021 – 2023

- ▶ Completed intermediate science studies with a focus on Mathematics, Physics, and Computer Science

TECHNICAL & SOFT SKILLS

Languages	Python · JavaScript · HTML5 · CSS3
Frameworks	Bootstrap · (expanding into React)
Tools	MS Excel · MS Word · MS PowerPoint · Git · Netlify
Domains	Web Development · IT Support · Office Automation · Cybersecurity Fundamentals
Soft Skills	Problem Solving · Cross-functional Collaboration · Project Coordination · Attention to Detail · Agile Task Management

CERTIFICATIONS

- ▶ Google Project Management Certificate — Google / Coursera
- ▶ Google IT Support Professional Certificate — Google / Coursera
- ▶ Google AI Essentials — Google
- ▶ Google Prompting Essentials — Google
- ▶ Python Programming Certificate — PFTP

PROJECTS

Ransomware Simulation

Python · Cryptography · Ethical Hacking Concepts

- ▶ Architected a fully controlled ransomware simulation in Python to demonstrate real-world attack vectors, file-encryption behavior, and system response strategies
- ▶ Engineered a mock file-encryption engine to systematically study attack patterns and surface potential system vulnerabilities in a safe lab environment
- ▶ Produced detailed technical documentation outlining findings and mitigation recommendations, reinforcing defense-oriented security thinking

Personal Portfolio Website <https://romeelportfolio2.netlify.app/>

HTML5 · CSS3 · JavaScript · Responsive Design · Netlify

- ▶ Designed and deployed a fully responsive personal portfolio showcasing projects, certifications, and professional achievements across desktop and mobile viewports
- ▶ Implemented smooth interactive UI elements and a structured information hierarchy to maximise visitor engagement and readability
- ▶ Continuously iterated on design and content based on peer feedback, practising agile, user-centric development cycles

EXPERIENCE

Project Management Intern (Remote) • *Excelerate, Dubai*

Jul – Sep 2025

- ▶ Collaborated cross-functionally with an international team to plan and coordinate daily project activities, ensuring on-schedule delivery of milestones
- ▶ Monitored project progress using structured tracking tools, proactively flagging risks and escalating blockers to the project manager
- ▶ Maintained comprehensive project documentation — reports, meeting notes, action logs — enabling seamless team communication across time zones
- ▶ Spearheaded data organization and preparation of progress updates, supporting data-driven decision-making throughout the project lifecycle
- ▶ Resolved minor scope and coordination issues independently, demonstrating initiative and strong stakeholder communication skills
